

May 15th, 1893.

A.J. Zabriskie, Esq.,

Dear Sir:-

Please find enclosed the Mint estimate for making medals and mounting the same, without ribbons, I mention ribbons because you asked for ribbon bar on rider for medals, I suppose you have some arrangement for providing ribbon.

You will also please find enclosed, two sketches showing obverse and reverse design for your proposed medal.

I find some difference in the Supporters on the Coat of Arms of the State of N.Y., In some cases the figures are standing, in others sitting and some other points of detail, therefore should we go on with this work, I would thank you to let me have an authentic copy of the seal of the State of New York.

The cost of engraving the dies for medal will be two hundred and fifty dollars for one pair of dies for medal and one die for rider.

Should more than one pair of dies be required they will be furnished at half the first cost.

Very respectfully,

Chas. E. Barber

Engraver

P.S.

If there is much more delay it will be quite impossible to undertake this work.

C.E.B.
